

ST PATRICK COLLEGE EMENE

DEAR PARENTS,

Compliments and God's blessings. I wish to happily inform you that we have successfully concluded the 2021/22 academic session. Condition of living has continued to be very high and almost reaching breaking point.

Despite the challenges, the college was able to record significant milestones:

1. Celebration of 62nd anniversary of the college with the commissioning of new principal's office
2. Spaco potto ICT portal with digital ID card for security, financial management, termly results and general school administration
3. College security has been upgraded etc...

All the above would not have been possible if not for the support of parents. We sincerely thank you all. The coming academic session 2022/2023 will still be very challenging judging from the instability of almost every aspect of life in the country. We rely so much in your usual total cooperation and we are ever committed to the formation of our students.

Our main source of revenue in managing the college is school fees and this is why we desperately need your cooperation. We reviewed our school fees a little upwards in response to the biting economic situations. Kindly bear with us so that we can continue to take good care of your son.
